

Collecting Blood Just Got Easier.

BioboxTM includes a single-use device for obtaining microliter capillary whole blood samples.

Create a Better Patient Experience

Collecting samples with the Biobox at home test kit is convenient and painless, eliminating common barriers to completion.

Collect Samples Your Way

Biobox fits into your existing sampling workflow with the flexibility to support remote, hybrid, or in-clinic collection.

Accurately Measure Blood Analytes

Biobox enables the collection of clinical grade blood samples processed at a CLIA/CAP certified lab.

Reach Customers Anywhere

Demand for convenience is at an all-time high. Access Labs' anytime, anywhere blood collection kit makes sampling fit into even the busiest schedules.

Click. Collect. Send.

Easy to Use

Less Than 1mL of Blood

Unmatched Accuracy

24-48 Hour Results
